### **COURSE DESCRIPTION:**

It's no secret: employees are a company's greatest asset, especially in dental practice! Therefore, leveraging key patient experience-moments will have huge benefits and in turn, will maximize your practice profits. This course is designed to provide piles of "diamonds" on clinical techniques and treatment planning "pearls" essential to seeing long-term success and financial growth. From understanding patient decision-making to the tools and tips for getting patients to be "WOW-ed" with the overall experience, this course is designed to give a practical, "soup-to-nuts" approach to the latest clinical research, approaches to human behavior and includes special emphasis on team communication.

### **Course Objectives:**

- Learn current trends in today's general practice and the market we exist in today.
- Talk common sense, "real-world" approach to treatment planning, and the benefits of "Co-Diagnosis".
- Understand personality styles via the DISC model of human behavior.
- Review clinical cases for the application of principles and products.
