1CE
LIVE
LECTURE!

Course: The Impact of Intraoral Scanning

The ability to utilize a digital workflow in dentistry can no longer be questioned. The early digital adopters were limited due to equipment choices and closed systems. Intraoral scanning has become the center of the digital dental framework and can offer many options to expand and grow. The open-system environment has allowed developer partnerships that greatly benefit the dentist. Possibly, an equally important benefit is the effect this can have on the patient and your practice!

Course Objectives:

- **Understanding scanner technology and making decisions that is best for the practice.**
- **Determine restorative accuracy and taking dentistry to the next level.**
- **Identify the new consumer and patient perception while moving the practice forward.**

EVENT SCHEDULE:

6:00 pm – 7:00 pm

Welcome - Beer Tasting and Networking

7:00 pm – 8:00 pm

Dinner and
Continued Networking

8:00 pm – 9:00 pm

CE Lecture

\$42

PER PERSON

Dinner
Included!

Dr. G. Franklin Shull

SPEAKER:

Dr. Shull is a native of Lexington, South Carolina and is a graduate of the University of South Carolina and the Medical University of South Carolina School of Dentistry. Following dental school, he completed a General Practice Residency at Palmetto Health Richland. Dr. Shull is both a past president of the Greater Columbia Dental Association and the SC Academy of General Dentistry. He is a fellow of the Academy of General Dentistry and is a faculty member at Palmetto Health Richland Department of Dentistry and the Medical College of Georgia School of Dentistry. Dr. Shull is also on the teaching faculty at the L.D. Pankey Institute in Key Biscayne, Florida where he teaches dentists from all around the world about aesthetic dentistry. He has been published in many dental journals and recently contributed to a textbook on comprehensive dentistry. Dr. Shull lectures throughout the U.S. on aesthetics, dental materials, and photography.
