Pain Management, Prescribing Requirements, and Opioid Abuse: Strategies for Dentists and Hygienists

2
CE
Credits

Karson Carpenter, DDS

This course is designed to educate dentists and dental hygienists on current principles and techniques for the management of pain and prevention of opioid abuse.

Topics and learning objectives include:

- Definition of pain
- Types of pain
- Physiology of pain
- Oral facial pain disorders
- Drugs used to manage pain
- Prescribing strategies to reduce addiction potential
- Pain management techniques
- Local anesthetics
- Trigger point injections
- Oral appliances
- Non-traditional techniques
- Opioid awareness, the opioid crisis and addiction
- Characteristics of individuals with addiction issues
- Stages of substance abuse and typical behaviors
- Dental management strategies for addicted patients
- Post-operative pain strategies
- Regulatory requirements for prescribers
- Tools to control fear and anxiety
- Ergonomics and pain prevention for the dental team
- New products to manage pain and sensitivity

The course includes a digital workbook which will be provided to all participants

Beginning June 27, 2023, practitioners who are renewing or applying for a new controlled substance DEA license must complete 8-hours of substance use disorder (SUD) training. This training may be applied towards that requirement. In addition, this course will help fulfill the requirement for "pain management" education in states that require it.
