

## 3 Part Series

You have the flexibility to attend part 1, part 2, or part 3 of this series independently, or you can choose to participate in all three sessions!

### No Prerequisites

**CE's:** 1.5 Lecture Credits For Each Session

**CE Code:** ZFN9XFB9C46

**AGD Subject Code:** 490

**Location:** Virtual

**Part 1:** May 13 **Part 2:** May 20 **Part 3:** June 3

**6:00pm – 7:30pm CST / 7:00pm - 8:30pm EST**

## Precision and Collaboration: Advanced Strategies in Dental Care

Enhance your clinical expertise and team performance with this transformative 3-part webinar series designed for dental professionals. From mastering air polishing techniques to optimizing implant care and achieving seamless team calibration, this series provides actionable insights to improve patient outcomes and streamline your practice. Whether you're

looking to refine your technical skills, improve patient education, or foster collaboration within your team, these webinars are packed with evidence-based strategies and practical tools to take your dental care to the next level.

**May 13**

### **Part 1 of 3 – Polished to Perfection: Air Polishing and Power Device Mastery**

#### **Mastering Air Polishing and Power Devices:**

This webinar delves into the science and application of air polishing and power devices, empowering dental professionals with the knowledge and skills to optimize their use. Participants will learn about various powder types and their indications, proper ergonomic techniques to reduce fatigue, and the maintenance and wear assessment of piezo and power units. This course ensures a safe, efficient, and evidence-based approach to achieving superior clinical outcomes.

#### **Course Objectives Part 1:**

- ▶ Identify the different types of air polishing powders and their appropriate clinical applications.
- ▶ Demonstrate ergonomic strategies to improve comfort and reduce strain during power device use.
- ▶ Assess wear and tear on instruments and devices to maintain optimal performance.
- ▶ Develop a maintenance protocol for piezo devices and air polishing units to ensure longevity and efficacy.

**May 20**

### **Part 2 of 3 – Implant Insights: Elevating Home and Chairside Care**

#### **Implant Care Best Practices:**

Implant dentistry is a cornerstone of modern patient care, requiring precision in home care guidance and chairside management. This webinar provides a comprehensive guide to best practices for implant care, covering biofilm management, proper techniques for maintaining implant health, and strategies to engage patients in effective home care routines. Equip yourself with tools to ensure long-term implant success and patient satisfaction.

#### **Course Objectives Part 2:**

- ▶ Explain best practices for chairside implant maintenance and biofilm disruption.
- ▶ Educate patients on personalized home care routines tailored to implants.
- ▶ Evaluate clinical tools and techniques for managing peri-implant health.
- ▶ Implement protocols to reduce peri-implantitis risks and enhance clinical outcomes.

**June 3**

### **Part 3 of 3 – Teamwork in Action: Calibrating Dental Protocols for Optimal Care**

#### **Team Calibration and Treatment Protocols:**

Consistency in treatment planning and execution is critical for effective patient care. This webinar focuses on team calibration, enabling dental professionals to distinguish between full-mouth debridements, prophylaxis, gingivitis, and SRP. Through clinical case reviews and step-by-step appointment sequencing guidance, participants will learn how to align their team's approach for improved efficiency and patient

#### **Course Objectives Part 3:**

- ▶ Differentiate between full-mouth debridement, prophylaxis, gingivitis treatment, and SRP based on clinical cases.
- ▶ Analyze treatment planning strategies to optimize appointment sequencing.
- ▶ Foster team collaboration and consistency through calibrated protocols.
- ▶ Apply practical communication techniques to enhance patient understanding and acceptance of treatment plans.

## Precision & Collaboration: Advanced Strategies in Dental Care, 3 Part Series

### Speaker: Amber Auger

Amber Auger, MPH, RDH, specializes in treating dental dysbiosis conditions and guiding hygienists in their clinical confidence, time management, and patient-specific periodontal protocols. Amber is the 2019 Sunstar Award of Distinction recipient, a contributor to RDH Magazine, featured author for DentistryIQ, editor of the RDH Graduate newsletter, and the host of #AskAmber-RDH. Amber is enhancing the dental hygiene community towards whole-body treatment in her Functional RDH® certification and Thrive in the Op® on-demand courses and weekly coaching sessions. Amber can be reached at [amberaugerrdh@gmail.com](mailto:amberaugerrdh@gmail.com).

## Tuition

**\$19.95** AIDA Member Per Session

**\$29.95** General Admission Per Session

Registration is per person, not by office.

Each person attending the course that requires CE credits or verification of participation for license renewal needs to register individually to receive a unique join link for the virtual course. This join link is how attendee participation is tracked. Each course is offered in a virtual, live webinar format. Participants must attend the live course during the scheduled date and time. This course will not be recorded or shared for on-demand viewing. Seats are limited.

American Independent Dental Alliance  
Nationally Approved PACE Program Provider  
for FAGD/MAGD Credit. Approval does not imply  
acceptance by any regulatory authority or AGD endorsement.
